GUIDANCE...

on using these materials can be found on the CD. It is recommended that this guidance is consulted before the CD is explored further. To see the whole of each page, the computer display should be set to **1024x768 or higher (eg: 1280x768)**. On the Home page, rolling over the menu items at the top of the screen will reveal themes within that section. In some sections, rolling over an image will enlarge it. Clicking *once* on any menu item will move to the appropriate section. To assist further with navigation, on each page there are: 'You are here' and 'Next theme' breadcrumb trails. Documents open in pdf format. When this happens, the CD will close temporarily. Clicking *once* on a button will open a document, move to another page or open a web link. For additional support, some documents have been provided in pdf format to enable hard copies to be downloaded and printed.
